Highway 101 Collapses! by Evan Kramer

A section of Highway 101 at Arizona Hill between mileposts 312 and 313 collapsed as much as 20 feet on Monday. The northbound lane fell only some 10 feet while the southbound lane sustained the greater damage.

Reports that the road, which is built on top of serpentine, would be opened later in the day on Wednesday were premature. As of Wednesday morning at 9:00 am the road continued to slide toward the Pacific Ocean. ODOT road crews were awaiting arrival of geologists before proceeding with repairs. The hillside above the collapse is also saturated from the rains and is sliding toward the highway. Telephone poles above the highway are leaning over precariously as the ground into which they are sunk continues to move.

Traffic is being stopped southbound at Port Orford and northbound at Wedderburn. Oregon Department of Transportation officials are currently estimating the road will be closed for one week.

[Continued Inside]

And The Winners Are...

Here are the final results of the recent election. Note that in the 2CJ School Board elections, Patty Reese and Marc Farmer were tied at press time. The votes will be recounted on Wednesday. If the totals are correct, a run-off election may be necessary. Totals shown here do not include write-in votes.

[Editorial - Continued from Pg 1]

Things you'll never see on television in Port Orford. A few weeks back a film crew "took over" Cape Blanco State Airport to film a Toyota commercial for broadcast on television in Japan. The car being filmed was a right-hand drive Bi-Turbo Supra traveling at speeds up to 150 mph. Why, you ask, did they need to venture so far to film this short piece of film? According to sources at the site the main requirement was an airport with a solid row of trees lining it for use as background.

Famed underground cartoonist Robert Crumb aka R. Crumb thought he'd spent a few peaceful hours in Port Orford

looking for 78 rpm records. Little did he know the editor of the local free newspaper would spot him walking out of Play It Again/Nine Patch Antiques. With his anonymity blown, he was graceful and autographed one of his books.

Last year's Fourth of July Jubilee parade honorary grand marshal Eric Reutererona recorded 4.25 inches of water in his rain gauge from Monday's rainstorm. Just one day earlier crowds of people and dogs enjoyed the sun along the beach near Battle Rock looking for agates and interesting shells.

Judging from the overflow from the CTR dumpsters, the Port Orford Clean Up Day held last Saturday was wildly successful. Public service director Dennis Gehrke, with mechanical help, served as official metal debris compactor.

The elections results are in and the ballots have been counted except for the write in votes. Congratulations to both the winners and losers. By running, you all showed real interest in the democratic process. Now we can all focus our attention on the special district budget committee meetings which will be held over the next three months.

Letter to the Editor

What Is Truth?

Each of us perceives truth through the eyes of our own life experiences, our own background. Some argue that truth is only relative and not absolute.

This is our perception of the truth. The superintendent and the School Board have their own set of truths. To bring to the attention of the public another injustice in our school district, we need to begin four years ago when a new superintendent was hired by our school district.

The maintenance Department was running very well with a most competent employee, Mr. Zitzelberger, who has been with the school district for 21 years as a maintenance supervisor. Mr. Wold decided that what had been working well would no longer work, so he decided a change was needed and took the custodians from Mr. Zitzelberger's jurisdiction. In addition Mr. Zitzelberger, without benefit of an evaluation, was placed on a "Plan of Assistance" and denied any raise.

Mr. Zitzelberger then requested inclusion in the Union to help secure his job and right the injustices served him. Mr. Wold changed Mr. Zitzelberger's job title to maintenance II. Then Mr. Wold combined the maintenance supervisor position with the existing transportation supervisor and included a very nice pay raise for that person's position. All this was approved by the School Board without an investigation or considering any other input.

Union raises in July were again refused following rejection by the District of a fact finders report that the maintenance II position was under-paid. Mr. Wold proposed another job description for Mr. Zitzelberger which will probably again freeze his salary. Mr. Zitzelberger is the only employee in the District to receive no pay raise for two years. What's wrong with this picture? What's wrong with the

school board? Are they puppets or people.

Mr. Zitzelberger has lived in this community 31 years, has served the schools as Maintenance Supervisor for 21 years. He is on call 24 hours a day, he has served students, teachers, superintendents, board members and the community with honor. His knowledge and skill and hard work have maintained the schools superbly on a very limited budget for a very long time.

He has been honest in letting the School Board and Superintendent know where and when things needed to be done, both for safety and security for all. He has tried to cooperate even under harassment and degradation. Where will this all end? How long will we allow one person or persons to degrade our working class to the point of tearing down the morale of all. Mr. Zitzelberger is a very valuable employee and we need more like him.

high school. A new bus has been ordered. The remodeling of a school building in Langlois has begun. This project has a price tag approaching \$200,000. Our board seems to want top quality facilities and the lowest paid teachers in the area. Something is wrong with this picture.

As a protest, teachers are now working exact contract hours in each building. In a recent ad in the Port Orford News the school board stated that teachers work 7-3/4 hours daily. That is what our contract says. Most people realize that teachers spend a great deal of time at school doing unpaid work for children. Now that we are actually working exactly 7-3/4 hours each day in the buildings and are refusing to do unpaid tasks, the difference will be felt. Don't worry. We are still doing our homework and teaching our classes to the best of our ability. If you come by during one of our protests, feel free to stop and chat with us. If teachers, parents, and community members work together, we can make our schools the envy of the south coast.

Sincerely, Fred Betz

Dear Editor

As many of you no doubt noticed the Port Orford - Langlois Teacher's Association has begun a daily protest in front of each of our schools. Our goal is simple. We want our community to be aware of the continuing situation that threatens the quality of education in our district. The teachers in our district have the lowest salary and benefit package on the South Coast. There is a very high turnover rate. Nearly 50% of the teachers now employed were hired in the last three and one half years.

This is not just a teacher problem; it is a community problem. Think for a moment about the effect that high teacher

turn-over has on children...I'm sure you thought of some important ones. Here's another one to consider.

Good education takes teamwork. The kind of co-ordination and mutual understanding that it takes to build a sound educational program is very difficult to achieve under these conditions.

Apparently the board wants this situation to continue because the offer it has on the table will not significantly change the status of its teachers as the lowest paid in the area. Most districts are facing cuts in

their funds for next year. According to Mr. Wold's estimate printed in the World on 3/18/93 our district will lose about \$25,000 next year. What he doesn't say is that this year we received \$250,000 extra from Salem as a part of an equalization formula to bring poor districts a step forward relative to other districts in the state. Our district is very fortunate. It has been spending some of the extra money on worthwhile projects. A new bus barn has been built. A new roof was put on the Blanco gym. Paving has been done at the

Recently, in an archeological excavation in the middle east, a large stone tablet was unearthed. Scholars determined that it was an ancient audit report, complaining about the use of papyrus scrolls by the scribes. It was clear that such scrolls lacked the evidential integrity of stone and clay tablets.

Port Orford Rainfall

Rainfall records have been maintained for the City of Port Orford since 1905, as well as for portions of the years 1852-1856. Records have also been maintained for the Elk River Fish Hatchery since 1970. Although the hatchery is only about 3.5 miles inland from the ocean, rainfall there is significantly higher, averaging 164% of the rainfall in town. The rain clouds dump when they hit the mountains.

Here are the monthly averages, maximums, and year of maximum for the two locations. . .
